Patriot® 10-10 Texturized
A Texturized Fortified Feed for Adult Horses

**Product Positioning**
ADM Alliance Nutrition’s Fortified Feeds are formulated for today’s performance horses using the latest scientific data. Fortified Feed products utilize GROSTRONG® Minerals along with high-quality, multiple sources of protein, quality grains, fermentable fiber sources, and added vegetable fats to provide balanced nutrition for horses. FORAGE FIRST® programs combine good-quality forage, GROSTRONG vitamin-mineral products, and Fortified Feed products to produce balanced total rations. ADM Alliance Nutrition’s texturized Fortified Feeds offer a popular alternative to pelleted products. Where forage supplies are limited or of poor quality, choose one of the complete feeds in the Fortified Feed line-up of products.

Patriot 10-10 Texturized, a Fortified Feed, is a key component of the FORAGE FIRST program.

**Product Description**
Patriot 10-10 Texturized is a loose grain mix specifically designed for mature horses.

**Features**
- Select ingredients, consistent formulation
- Higher energy, lower starch formulation
- Highly digestible, fermentable fiber
- Provides Soy Shine™
- Provides high-quality protein
- Contains GROSTRONG Minerals
- Contains CitriStim®
- Provides Prospone® yeast
- Provides natural-source vitamin E
- Texturized, sweet form
- Highly palatable

**Benefits**
- Ensures product consistency and dependable nutrient sources.
- The use of vegetable fat sources and digestible fiber sources results in a feed with a lower starch content, which decreases the risk of digestive disorders. Feeding rate is lower for higher energy feeds compared with grain-based feeds.
- Lowers the starch content of the diet, which is favorable for the equine digestive system, while at the same time provides energy in a form utilizable by the horse; fiber sources used contribute significantly to digestible energy content of this feed.
- Supplies energy from proprietary blend of oils and digestible fibers from soybeans; provides more energy per pound compared with grains; also contributes to hair coat shine and “bloom.”
- Recommended amounts to meet needs.
- Provides 27 major minerals, trace minerals, vitamins, and electrolytes to ensure horses receive nutrients in the correct amounts and ratios needed for maintenance, growth, reproduction, and performance.
- An ADM proprietary feed ingredient, which is a source of yeast mannans and beta glucans that may favorably impact the gut microbial population.
- Studies have shown yeast enhances feed palatability, digestibility, and hindgut fermentation.
- Protects body tissues from oxidative damage. The need for vitamin E is vital to immune system functioning and may be especially important for working horses as they are more prone to exercise-induced muscle damage. Research shows natural-source vitamin E is more bio-available compared with synthetic vitamin E.
- Palatable feed readily consumed.
- Encourages feed consumption.

**Product Form/Packaging**
Texturized form in 50 lb bags (81484AAA84).

Regional availability in the Cordele, GA, area.
How Much is Needed
• 5-6 lb per horse daily for the average-sized mature horse (see Feeding Directions).

Ingredients

Whole Oats, Dehulled Soybean Meal, Dehydrated Alfalfa Meal, Wheat Middlings, Cracked Corn, Corn Germ Meal, Extracted Citric Acid Presscake, Calcium Carbonate, Dicalcium Phosphate, Salt, Brewers Dried Yeast (Saccharomyces Cerevisiae), Dried Yeast Fermentation Solubles, Cane Molasses, Lignin Sulfonate, Magnesium Oxide, d-alpha Tocopheryl Acetate (A Source of Vitamin E), Ferrous Sulfate, Copper Sulfate, Sodium Selenite, Vitamin A Supplement, Thiamine Mononitrate, Riboflavin Supplement, Manganese Oxide, Calcium Pantothenate, Niacin Supplement, Vitamin D3 Supplement, Vitamin B12 Supplement, Menadione Sodium Bisulfate Complex, Choline Chloride, Mono and Dicalcium Phosphate, Zinc Oxide, Defluorinated Phosphorous, Mineral Oil, Cobalt Carbonate, Potassium Iodate, L-Lysine, Artificial Flavors, Vegetable Oil Refinery Lipid, Sodium Bentonite, Vegetable Oil, Feed Grade Fat Product, Phosphoric Acid, Lecithin Monoglycerides, Sodium Propionate-Propionic Acid - Potassium Sorbate - Sodium Benzoate - Ethoxyquin (Preservatives).

Feeding Directions

The fiber sources in Patriot 10-10 Texturized are highly digestible in horses and contribute significantly to the digestible energy content of this feed. Feed 5-6 pounds of Patriot 10-10 Texturized to an average-sized, mature horse (900-1200 pounds) along with at least 20 pounds of good-quality forage divided into at least two meals each day. Adjust feeding rate for each individual horse to maintain the desired body condition. If your horse needs less than 5 pounds of Patriot 10-10 Texturized to maintain condition, provide a GROSTRONG Minerals for Horses product according to label directions. If more energy is required when feeding 6 pounds of Patriot 10-10 Texturized, add a Concentrated Energy Supplement from the FORAGE FIRST Nutritional Pyramid. Provide clean, palatable water at all times, except directly following heavy exercise. See bag for additional details. For more information, call 1-800-680-8254.

WARNING: This feed contains copper. Do not feed to sheep or other copper sensitive species. Follow label directions. Feeding selenium at levels in excess of 0.3 ppm in the total diet is prohibited.
